The City Water and Sewer Department shall at all times be so operated and maintained, and rates and charges for its services, facilities, products and by-products shall be, as to make the utility self-supporting and self-perpetuating. Such charges from time to time imposed and collected shall be made and kept adequate to pay as incurred all costs of operation and maintenance of said utility and to establish and maintain reasonable operating reserves; to produce net revenues which shall be sufficient at all times to pay promptly the principal and interest due on all obligations of the City incurred for the improvement, extension and enlargement of said utility, to the extent that such obligations are according to their terms payable from said net revenues, and to establish and maintain adequate reserves for the security of said obligations. Charges may be set to produce surplus net revenues, over and above current principal, interest and reserve requirements, in amounts sufficient to provide reasonable allowances for depreciation and replacement of the utility plus a reasonable return on the City's capital investment therein which surplus net revenues, when actually on hand, and to the extent that they are not required as a reserve for depreciation and replacement, may from time to time be appropriated by the governing board to pay or contribute to the cost of any other City functions, subject to the limitations now or hereafter prescribed by law.

The foregoing appropriations shall not, however, be deemed or construed to preclude the City from defraying any part or all of the expense of any improvement, enlargement or extension of the water and sewer utility by the levy of special assessments or taxes or the issuance of general obligation bonds, whenever and to the extent that such action is authorized in the manner provided by law and is deemed fair and equitable by the governing body.

6.0105 Policy on Improvements – Extensions

It is hereby declared to be the policy of the City, subject to such modifications as shall be deemed by the governing body to be required by special circumstances in individual cases, and subject to such modifications as may hereafter be made by ordinance amendatory hereof or supplemental hereto, that the cost of capital improvements, enlargements and extensions of said utility shall be paid in the following manner:

1. Where water mains not exceeding six inches or sanitary sewer mains not exceeding eight inches in diameter are installed adjacent to residential properties, and where water mains not

exceeding eight inches or sewer mains not exceeding ten inches in diameter are installed adjacent to commercial properties, the total cost thereof shall be assessed against the properties abutting on such improvements, in sums proportionate to and not exceeding the total benefits determined to be derived therefrom by the respective properties. Water and sewer mains of the dimensions above described are referred to herein as “lateral” mains and other mains are referred to as “trunk” mains.

2. Where a trunk main is installed, the governing body upon advice of the city engineer shall estimate the probable cost of construction of a lateral main at the same time and place and such estimated cost shall be assessed against the properties abutting on such main and in the manner above provided.
3. Twenty percent (20%) of the cost of any sanitary sewer in excess of the estimated cost of a lateral sewer at the same time and place shall be assessed against all properties determined by the governing body to require the immediate construction of such main as a trunk sewer, including properties abutting thereon and properties served or capable of being served by lateral sewers connected thereto, in amounts proportionate to and not exceeding the benefits determined to be derived by said respective properties from such trunk sewer.
4. The total cost of storm sewers shall be assessed against properties within the area determined to be benefitted thereby, in amounts proportionate to and not exceeding the benefits determined to be derived therefrom by the respective properties.
5. Where a portion of any of the foregoing improvements is deemed to accrue primarily to the City at large, a portion not exceeding twenty percent (20%) of the cost thereof, as determined by the governing body, may be paid by the levy of ad valorem taxes upon all property within the City over the same period as the levies of assessments for such improvements, or any portion or all of such cost may be paid out of current funds duly provided in the budget, or from the proceeds of general obligation bonds duly authorized by the electors.
6. Such portion of the cost of any improvement, extension or addition to the utility as is not paid by special assessments and taxes levied and actually collected in respect thereof shall be paid from the net revenues of the utility.
7. Where due to any error or omissions or to any special circumstances a special assessment is not levied against any property benefitted by an improvement at the time of the construction thereof in accordance with the program described in this section, the City reserves the right to levy a supplemental special assessment upon such property or to impose and collect a special charge for the connection of such property with the utility system in such amount as shall be required to pay its just share of the assessable cost of such improvement.

6.0106 Utility Fund – Separate Accounts

All moneys received by the City in respect of the services, facilities, products and byproducts furnished and made available by the City Water and Sewer Department, except collections of special assessments and taxes appropriated to improvement district funds and moneys borrowed

for capital improvements, and all money, receipt and returns received from any investments of such earnings, shall be paid into the treasure of the City and kept in a special fund which shall be permanently maintained on the books of the City, separate and distinct from other funds, and designated as the Water and Sewer Utility Fund. In the records of this fund, all receipts and disbursements of money on account of or in connection with the utility shall be entered and reflected; but the moneys from time to time on hand therein shall always constitute public municipal funds and shall be deposited and their safekeeping secured like other City funds. Separate accounts within the Water and Sewer Utility Fund shall be permanently maintained for the purpose of segregating the revenues required to meet the several expenses and obligations of the utility, as provided below, and such revenues shall be administered and accounted for as follows:

1. Operation and Maintenance Account. There shall be a credited at least once in each calendar month to the Operation and Maintenance Account of said fund, as a first lien and charge on the gross revenues of the utility such sum as shall be needed, over and above any credit balance then held therein, to pay all claims due which by accepted accounting practices constitute normal, reasonable and current expenses of operation and maintenance of the utility, and to pay such expenses estimated to accrue for a period of approximately one month, and to maintain a reasonable reserve for contingencies. Moneys in said account shall be used only to pay expenses of the foregoing type, and not for repairs or replacements or for capital improvements properly chargeable to replacement and depreciation reserves or surplus finds.
2. Principal and Interest Account. The Principal and Interest Account of the fund, created by resolution adopted September 11, 1972, shall continue to be maintained as provided in that resolution until the payment in full of the improvement warrants issued against said fund.
3. Revenue Bond Account. The net revenues of the utility are herein defined as the aggregate of all sums on hand in the Water and Sewer Utility Fund from time to time in excess of the current requirements defined in (1) and (2) above. The entirety of said net revenues shall be credited each month to the Revenue Bond Account of the Water and Sewer Fund until there shall have been credited within said account, and thereafter so much of the net revenues as shall be necessary to maintain at all times, a reserve in an amount at least equal to the sum of the principal and interest payments due within each next succeeding twelve-month period upon all revenue bonds of the City heretofore or hereafter issued and made payable from said accounts. After this reserve has been created, there shall continue to be credited out of the net revenues to the Revenue Bond Account each month, over and above sums required to maintain such reserve, an amount not less than one-twelfth (1/12) of the sum of the principal and interest to become due on all such revenue bonds, and the reserve shall be used for such purpose only when other moneys in the account are insufficient. All revenue bonds heretofore and hereafter issued and made payable from said account, subject to the limitation upon such issuance contained in Section (6) hereof, shall constitute a first lien and charge on the net revenues of said utility without preference or priority of one bond over any other. However, if at any time the moneys in the Revenue bond Account should be insufficient to make all payments of principal and interest due on such revenue bonds, and cannot be made

sufficient by transfer of moneys from the other accounts described below, the moneys available shall be first used to pay interest then accrued on all bonds payable from said account, and any excess moneys available shall be used to pay matured principal of such bonds in order of their maturity dates, provided that moneys available for payment of bonds maturing on the same date shall be prorated equally among such bonds.

4. Improvement Warrant Account. There shall also be maintained in said fund an Improvement Warrant Account, for the purpose of segregating net revenues required for the payment of any portion of the cost of improvements hereafter instituted, for which such revenues have been pledged in accordance with the provisions of Chapter 40-22 of the North Dakota Century Code. There shall be transferred from said account as required, to the fund of each improvement district for which such pledge has been made, sums sufficient, together with tax and assessment collections held in such funds, to pay when due the principal and interest on all improvement warrants drawn upon such funds for the financing of such improvements. Moneys sufficient for the requirements of said improvements district funds shall be credited and paid into the Improvement Warrant Account out of the net revenues remaining from time to time after provision for the current requirements of the Revenue Bond Account, and the lien and charge on said net revenues in favor improvement warrants for the payment of which such pledges have been made shall be subordinate only to the lien and charge on said net revenues in favor of revenue bonds payable from the Revenue Bond Account. In the event that moneys in the Improvement Warrant Account shall be insufficient for the making of all transfers required to be made to the several improvement district funds to which such pledges have been made, and cannot be made sufficient by the transfer of funds from the remaining accounts described below, the available moneys shall be apportioned first to the several improvement district funds in sums sufficient to pay interest then accrued on all warrants drawn on such district funds, and any remainder shall be applied in payment of matured principal of such warrants in order of the maturity dates thereof. As among warrants maturing on the same date, such available moneys shall be applied to the warrants of the several issues in proportion to the matured principal amount thereof for the payment of which taxes and assessments in the respective improvement funds are insufficient.
5. Replacement and Depreciation Account. There shall be maintained a Replacement and Depreciation Account, into which there shall be credited and paid as received, except as otherwise stated below, all net revenues in excess of the current requirements of the other accounts above described. In said account there shall be maintained such balances as the governing body shall from time to time determine to constitute an adequate reserve for depreciation and replacement of the utility, which reserve may be used to redeem prior to maturity obligations payable from the net revenues as and when the same become pre-payable according to their terms, or to replace worn out or obsolete properties of the utility, or to make extensions, enlargements or improvements thereto. Any moneys in said account determined to be surplus to the immediate requirements therefore may be invested or may be transferred to other City funds in the discretion of the Board, in the manner and subject to the limitations set forth in Section 40-33-12 of the North Dakota Century Code; and any acts amendatory thereof or supplemental thereto.

6. Moneys on Hand. The moneys on hand in any of the accounts of the Water and Sewer Utility Fund shall at all times be available and shall be used to the extent necessary to restore any deficiency in the funds on hand in any of the preceding accounts, in the order listed above, for the fulfillment of the requirements of such preceding accounts as herein defined.
7. Additional Accounts. The City also reserves the right to create additional accounts within the Water and Sewer Utility Fund for the purpose of segregating any surplus net revenues which may be pledged and appropriated to the payment of obligations hereafter issued to finance which may be pledged and appropriated to the payment of obligations hereafter issued to finance improvements, enlargements or extensions of said utility, other than the obligations made payable from the Revenue Bond Account and the Improvement Warrant Account, pursuant to the authority for such issuance reserved in Section 7.0107 hereof. Moneys on hand in any such account shall at all times be available for and used to the extent necessary to meet the current requirements of all of the foregoing accounts except the Replacement and Depreciation Account.

6.0107 Provisions for Financing Capital Improvements

In borrowing money for capital improvements, extensions or additions to said utility the following provisions shall at all times be observed:

1. For the purpose of this section, whenever the net revenues of the utility herein above appropriated to the Improvement Warrant Account are pledged to pay a portion of the cost of any improvement to be financed by improvement warrants, such warrants and the interest accruing thereon shall be deemed to be payable from said net revenues in the same proportion as that part of the cost payable from said net revenues bears to the principal amount of such warrants. The portion of costs payable from net revenues shall be deemed equal to the principal amount of the warrants less the principal amount of the taxes and assessments agreed to be levied for the payment thereof.
2. Except as provided in parts (3) and (4) below, no obligations shall be issued and made payable from the Revenue Bond Account or the Improvement Warrant Account at any time unless the net revenues of the utility, as defined in Section 6.0106 (3) hereof, received during the then next preceding fiscal year, shall have been in aggregate amount at least equal to the 125% of the average annual principal and interest payments due on all bonds payable from the Revenue Bond Account which are then outstanding or then to be issued, plus such percentage of the average of the annual principal and interest payments due on each issue of improvement warrants then outstanding or then to be issued as shall be payable from said net revenues, which averages shall be computed on the basis of the principal and interest payments due in the fiscal years of the then remaining term of all such revenue bonds and improvement warrants then outstanding. For the purpose of such computation, whenever rates for water and sewerage service have been changed in the course of any fiscal year, the net revenues for such year shall be deemed to be those which would have been received if such amended rates had been in effect during the entirety of such year, based upon the actual quantities of service furnished to each class of

customers and the actual expenses of the utility during such year; provided that in no case shall the net revenues so computed be deemed to exceed 125% of the net revenues actually received during such year.

3. Refunding revenue bonds may be issued for the purpose of prepaying and refunding bonds payable from the Revenue Bone Account when and as they become pre-payable according to their terms, in the manner and to the extent permitted by law, provided that such refunding revenue bonds shall be subject to the requirements set forth in part (2) hereof, as applied to the past net revenues and future principal and interest requirements as of the date of the issuance of such refunding revenue bonds. However, the City shall and does hereby also reserve the right and privilege of issuing refunding revenue bonds, when permitted by law, for the maturities of nay bonds payable from the Revenue Bond Account which have matured and for the payment of which the moneys in the Revenue Bond Account are insufficient, and cannot be made sufficient by transfer of moneys from other accounts, and such refunding revenue bonds shall be payable from the Revenue Bond Account on a parity as to interest with all then outstanding bonds payable therefrom, but the maturities of such refunding revenue bonds shall be subsequent to the maturities of all such outstanding bonds. Nothing herein shall be deemed to require the holder of any revenue bond to accept a refunding revenue bond in exchange therefore.
4. The City also reserves the right and privilege of issuing refunding improvement warrants in the manner and to the extent provided in Chapter 40-27 of the North Dakota Century Code and acts amendatory thereof and supplemental thereto. The lien and charge of such refunding warrants on the net revenues appropriated to the Improvement Warrant Account shall be the same as that in favor of the improvement warrants refunded thereby; provided that for the purpose of the computations directed to be made in this section, the maturities and the rate or rates of interest payable on such refunding warrants shall be substituted for the maturities and interest rates of the improvement warrants refunded thereby.
5. Nothing herein shall be deemed to affect the obligation of the City, under the laws of the State of North Dakota to levy ad valorem taxes upon all taxable property within its corporate limits for the purpose of paying a deficiency, if any, in the fund of any improvement district, at the time of the maturity of the last warrant drawn thereon, or at such earlier time as may be hereafter directed by such laws; provided that it shall be the policy of the City that the amounts of any deficiency tax levies so made shall be restored to the general funds of the City out of any surplus net revenues thereafter received, over and above the requirements of the several accounts of the Water and Sewer Utility Fund as stated in Section 6.0106 hereof.
6. Except as hereinbefore authorized, no obligation of any kind shall be issued and made payable from said net revenues unless the lien thereof is expressly made subordinate and junior to the lien and charge on said net revenues in favor of all revenue bonds

and improvement warrants payable from the Revenue Bond Account and the Improvement Warrant Account.

6.0108 Agreements with Bond and Warrant Purchasers

The City shall and does hereby covenant and agree with the original purchaser and each holder from time to time of each bond or warrant issued and made payable from the Revenue Bond Account or the Improvement Warrant Account, as follows:

4. Under each such schedule, the City shall be obligated to pay and will pay from its other funds to the Water and Sewer Utility Fund a fair and equitable amount for any and all services, facilities, commodities and benefits furnished to the City or any of its departments by the utility.

It will at all times maintain books of account adequate to show all receipts and disbursements of the City respecting the utility, and application of such receipts to the purposes of the several accounts described in Section 6.0106 hereof, which books of account shall be open to inspection by the holder of any obligation payable from the Revenue Bond Account or the Improvement Warrant Account at any reasonable time. The City will furnish a certified transcript therefrom of any information which any such bond or warrant holder may request, upon payment of a reasonable fee therefore.
6. It will cause the annual financial statement of the City required by the provisions of Section 40-16-05 of the North Dakota Century Code to include a statement as to the financial condition and the receipts and disbursements of the Water and Sewer Utility Fund and of its several accounts during each fiscal year, and will furnish a copy of such statement to the original purchaser of each issue of bonds or warrants upon request.

7. Upon written demand of the holder of twenty percent (20%) or more of the bonds or warrants of any issue payable from the Revenue Bond Account or Improvement Warrant Account and then outstanding, it will cause an audit of the books of account of the utility to be made by a certified public accountant satisfactory to the holders of such obligations, the cost thereof to be paid as an operating expense of the utility and will be furnish a copy of the report of any such audit to such part as shall be designated in such demand.

The City will also cause all persons handling funds of the utility to be bonded in suitable amounts for the protection of the City and the holders of obligations of the utility, and the expense of all such insurance and bonds shall be accounted for as an operating cost of the utility. The City will use the proceeds of any such insurance and bonds to restore the loss or damage compensated thereby.
9. The City and its governing body and each and all of its officers will punctually perform all duties with reference to said utility and the revenues thereof and the obligations issued hereunder which are imposed by the ordinances and resolutions of the City in force on the date upon which any such obligations are issued. All provisions of the Constitution and laws and of such ordinances and resolutions which are provide security for the holders of bonds issued hereunder are acknowledged to be a part of the City's contract with the holders of such obligations; provided that nothing herein shall be deemed to preclude the City from modifying the policies set forth in Section 6.0105 hereof with reference to any improvements constructed and financed after the effective date of such modification.
10. The holders of twenty percent (20%) or more in principal amount of each issue of bonds or warrants payable from the Revenue Bond Account or the Improvement Warrant Account and at the time outstanding shall be privileged, and are hereby empowered, to institute and maintain, on behalf of the holders of all outstanding obligations of the same issue, any suit or proceeding at law or in equity for the protection and enforcement of any covenant, agreement or stipulation herein provided to be performed or observed by the City or its governing body or any of its officers, whether or not any such obligations are then in default as to principal and interest. 23. "Unpolluted Water" is water of quality equal to or better than the effluent criteria in effect or water that would not cause violation of receiving water quality standards and would not be benefitted by discharge to the sanitary sewers and wastewater treatment facilities provided.
24. "Wastewater" shall mean the spent water of a community. From the standpoint of source, it may be a combination of the liquid and water-carried wastes from residences, commercial buildings, industrial plants and institutions, together with any groundwater, surface water and storm water that may be present.

2. It shall be unlawful to discharge to any natural outlet within the City or in any area under the jurisdiction of the City any sewage or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this ordinance.

3. Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of sewage.

4. The owner of all houses, buildings or properties used for human occupancy, employment, recreation or other purposes, situated within the City, and abutting on any street, alley or right-of-way in which there is now located or may in the future be located a public sanitary sewer, is hereby required at the owner's expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this ordinance, within 30 days after date of official notice to do so, provided that said public sewer is within 200 (61 meters) according to the North Dakota plumbing code of the property line.

6.0304 When Private Sewage Disposal Permitted

1. Where a public sanitary or combined sewer is not available under the provisions of Section 6.0303 (4), the building sewer shall be connected to a private wastewater disposal system complying with the provisions of this article.

2. Before commencement of construction of a private wastewater disposal system, the owner shall first obtain a written permit signed by the superintendent. The application for such permit shall be made on a form furnished by the City, which the applicant shall supplement by any plans, specifications and other information as are deemed necessary by the superintendent. A permit and inspection fee of \$100.00 shall be paid to the City at the time the application is filed.

3. A permit for a private wastewater disposal system shall not become effective until the installation is completed to the satisfaction of the superintendent. The superintendent shall be allowed to inspect the work at any stage of construction, and in any event, the applicant for the permit shall notify the superintendent when the work is ready for final inspection, and before any underground portions are covered. The inspection shall be made within 72 hours of the receipt of notice by the superintendent.

6.0305 Building Sewers and Connections

1. No unauthorized person shall uncover, make any connection with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the superintendent.

2. There shall be two (2) classes of building sewer permits: (a) for residential and commercial service, and (b) for service to establishments producing industrial wastes. In either case, the owner or his agent, shall make application on a special form furnished by the City. The permit application shall be supplemented by any plans, specifications or other information considered pertinent in the judgment of the superintendent. A permit and inspection fee of \$100.00 for a residential or commercial building sewer permit for an industrial building sewer permit shall be paid to the City at the time the application is filed.

4. A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer. The City does not and will not assume any obligation or responsibility for damage caused by or resulting from any such single connection.

5. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the superintendent, to meet all requirements of this ordinance.

6. The size, slope alignment, materials of construction of all sanitary sewers including building sewers, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the City. In absence of suitable code provisions, specifications of the state building and plumbing codes shall apply.

7. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer.

8. No person shall make connection of roof down spouts, foundation drains, areaway drains or other sources of surface runoff or groundwater to a building sewer, or building drain which in turn is connected directly or indirectly to a public sanitary sewer unless such connection is approved by the superintendent and the North Dakota State Department of Health.
9. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the City. All such connections shall be made gastight and watertight and verified by proper testing. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.
10. The applicant for the building sewer permit shall notify the superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of the superintendent or his representative.
11. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the City.

6.0306 Use of Public Sewers

1. No person shall discharge or cause to be discharged any unpolluted waters such as storm water, surface water, groundwater, roof runoff, subsurface drainage or cooling water to any building drain or sewer which in turn is connected directly or indirectly to the sanitary sewer unless such connection is approved by the superintendent and the North Dakota State Department of Health.
2. Storm water other than that exempted under Section 6.0306 (1) and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the superintendent and the North Dakota State Department of Health.

3. No person shall discharge or cause to be discharge any of the following described water or wastes to any public sewers:

- a. Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.
- b. Any waters containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the wastewater treatment plant.
- c. Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the wastewater works.
- d. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers or other interference with the proper operation of the wastewater facilities such as, but not limited to ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.

4. The following described substances, materials, waters or waste shall be limited in discharge to city systems to concentrations or quantities which will not harm either the sewers, wastewater treatment process or equipment, will not have an adverse effect on the receiving stream, or will not otherwise endanger lives, limb, public property or constitute a nuisance. The superintendent may set limitations lower than the limitations established in the regulations below if in his opinion such more severe limitations are necessary to meet the above objectives. In forming his opinion as to the acceptability, the superintendent will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment process employed, capacity of the wastewater treatment plant, degree of treatability of the waste in the wastewater treatment plant and other pertinent factors. The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer which shall not be violated without approval of the superintendent are as follows:

- a. Wastewater having a temperature higher than 150 degrees Fahrenheit (65 degrees Celsius)
- b. Wastewater containing more than 25 milligrams per liter of petroleum oil, non-biodegradable cutting oils or product of mineral oil origin.
- c. Wastewater from industrial plants containing floatable oils, fate or grease.
- d. Any garbage that has not been properly shredded (see Section 6.0302 (13)). Garbage grinders may be connected to sanitary sewers from homes, hotels, institutions, restaurants, hospitals, catering establishments or similar places where garbage originates

from the preparation of food in kitchens for the purpose of consumption on the premises or when served by caterers.

e. Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances to such degree that any such material received in the composite wastewater at the wastewater treatment works exceeds the limits established by the superintendent for such materials.

f. Any waters or wastes containing odor-producing substances exceeding limits which may be established by the superintendent.

g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the superintendent in compliance with applicable state or federal regulations.

h. Quantities of flow, concentrations or both which constitute a "slug" as defined herein.

i. Waters or wastes containing substances which are not amendable to treatment or reduction by the wastewater treatment processes employed, or are amendable to treatment only to such a degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

j. Any water or wastes which, by interaction with other water or wastes in the public sewer system, release obnoxious gases, form suspended solids which interfere with the collection system or create a condition deleterious to structures and treatment processes.

5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in 6.0306 (4), and which in the judgment of the superintendent, may have deleterious effect upon the wastewater facilities, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the superintendent may:

a. Reject the wastes;

b. Require pretreatment to an acceptable condition for discharge to the public sewers;

c. Require control over the quantities and rates of the discharge; and/or

d. Require payment to cover the added costs of handling and treating the wastes not covered by sewer charges under the provisions of 6.0306 (11).

If the superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the superintendent and the North Dakota State Department of Health.

6. Grease, oil and sand interceptors shall be provided when, in the opinion of the superintendent, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts as specified in 7.0306 (4) (c), or containing flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of the type and capacity approved by the North Dakota Plumbing Code and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captivated material and shall maintain records of the dates, and means of disposal which are subject to review by the superintendent. Any removal and having of the collected materials not performed by owner personnel must be performed by currently licenses waste disposal firms.

7. Where pretreatment or flow-equalizing facilities are provided or required by any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

8. When required by the superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling and measurement of the wastes. Such structures, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the superintendent. The structure shall be installed by the owner at his expense and shall be maintained by the owner so as to be safe and accessible at all times.

9. The superintendent may require a use of sewer services to provide information needed to determine compliance with this ordinance. These requirements may include:

- a. Wastewaters discharged peak rate and volume over a specified time period.
- b. Chemical analyses of wastewaters.
- c. Information on raw materials, processes and products affecting wastewater volume and quality.
- d. Quantity and disposition of specific liquid, sludge, oil, solvent or other materials important to sewer use control.
- e. A plot plan of sewers of the user's property showing sewer and pretreatment facility location.
- f. Details of wastewater pretreatment facilities.
- g. Details of systems to prevent and control the losses of materials through spills to the City sewer.

10. All measurements, test and analyses of the characteristics of waters and wastes to which reference is made I this ordinance shall be determined in accordance with the latest edition of

“Standard Methods for the Examination of Water and Wastewater,” published by the American Public Health Association. Sampling methods, location, times, durations and frequencies are to be determined on an individual basis by the superintendent.

11. No statement contained in this section shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment.

6.0307 Damage to Sewer Works Prohibited

No person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the wastewater facilities. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

6.0308 Powers and Authority of Inspectors

1. The superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing pertinent to discharge to the community system in accordance with the provisions of this ordinance.
2. The superintendent or other duly authorized employees are authorized to obtain information concerning industrial processes that have a direct bearing on the kind and source of discharge to the wastewater collection system. The industry may withhold information considered confidential. The industry must establish that the revelation to the public of the information in question might result in an advantage to competitors.
3. While performing the necessary work on private properties referred to in Section 6.0308 (1), above, the superintendent or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company, and the company shall be held harmless for injury or death to the City employees, and the City shall indemnify the company against loss or damage to its employees and against liability claims and demands for personal injury or property damage asserted against the company growing out of the gauging and sampling operation, except such as may be caused by negligence or failure of the company to maintain safe conditions as required in Section 6.0306 (8).
4. The superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair and maintenance of any portion of the wastewater facilities lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

6.0309 Hearing Board

1. A hearing, consisting of three (3) members, shall be selected as needed for arbitration of differences between the superintendent and sewer users on matters concerning interpretation and execution of the provisions of this ordinance by the superintendent.

2. One member of the board shall be selected to represent the City, one member shall be selected to represent the sewer and user involved in the arbitration and the third member shall be acceptable to both parties and shall serve as the chairman in the arbitration.

6.0310 Penalties

1. Any person found to be violating any provision of this ordinance except Section 6.0307 shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

2. Any person who shall continue any violation beyond the time limit provided for in Section 6.0310 (1), shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding one thousand dollars (\$1,000.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

3. Any person violating any of the provisions of this ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

6.0311 Validity
